

GRANA

Vol. 18. 1979

international journal of **PALYNOLOGY** and **AEROBIOLOGY**

with

World Pollen and Spore Flora

Editors

Sorsa, Finland and S. Nilsson, Sweden

Editorial Board

Th. Andersen, Denmark, A. Dunbar, Sweden, I. Engström, Sweden, K. Fægri, Norway, Hafsten, Norway, L. Holm, Sweden, G. Kjellström, Sweden, K. Larsen, Denmark, Manum, Norway, J. Praglowski, Sweden, J. Rowley, Sweden, Y. Vasari, Finland

Contents

No. 1

L. A. Kuprianova

On the possibility of the development of tricolpate pollen from monosulcate 1

Madeleine Van Campo, Siwert Nilsson and Anthony J. M. Leeuwenberg

Palynotaxonomic studies in *Tabernaemontana* L. sensu lato (Apocynaceae) 5

I. K. Ferguson and John J. Skvarla

The pollen morphology of *Cranocarpus martii* Benth (Leguminosae: Papilionoideae) 15

Sunirmal Chanda, Kalyani Ghosh and Siwert Nilsson

On the polarity and tetrad arrangements in some mono- and diaperturate angiosperm pollen grains 21

Y. C. Wee and A. N. Rao

Ananas pollen germination 33

Santha Devi

Spore types, morphological evolution and phylogeny in the Pteridaceae 41

Pentti Alhonen

Zur Kenntnis der Pollenzusammensetzung des sedimentierenden Sestons in einigen finnischen Flüssen — eine vorläufige Mitteilung 47

Maria Lea Salgado-Labouriau

Modern pollen deposition in the Venezuelan Andes 53

No. 2

P. Baas, R. Geesink, W. A. van Heel and J. Muller

The affinities of *Plagiopteron suaveolens* Griff. (Plagiopteraceae) 69

C. Sáenz de Rivas

Pollen morphology of Spanish Cistaceae 91

Ortrud Monika Barth

Pollen morphology of Brazilian *Symplocos* species (Symplocaceae) 99

Joseph Praglowski and Bhoj Raj

On some pollen morphological concepts 109

Marie-Thérèse Cousin

Tapetum and pollen grains of *Vinca rosea* (Apocynaceae) 115

Dorothy Guy-Ohlson

A new species of *Densoisporites* (Weyland & Krieger). Dettman in the Jurassic of southern Sweden 129

Announcement 132

No. 3

Egon Köhler and Elsbeth Lange

A contribution to distinguishing cereal from wild grass pollen grains by LM and SEM 133

P. K. K. Nair

The palynological basis for the triphyletic theory of angiosperms 141

Bernard Lugardon

Sur la formation du sporoderme chez *Psilotum triquetrum* Sw. (Psilotaceae) 145

Vishnu-Mittre

Palaeobotanical evidences of the environment of early man in northwestern and western India 167

Esther Nagy

New tropical elements from the Hungarian Neogene 183

Frøydis Eide Eikeland

Species distinction in the "Potentilla pollen type" (Rosaceae) of NW Europe 189

List of taxa of Volume 18 will appear in Grana 19 (1).
